SEE ATTACHED: There is no map showing any more disturbance that originally planned in the premining report.

Seven Mile DOE/019/013

No reclamation was performed at this mine during 1981. MRC assumed the operations in July of 1981, and hence have not completed our review of the future of this operation. A small contractor still operates here with a nominal amount of production, and this project has not added any additional acreage to the original mining plan.
